

Dear friends!

My name is Olena, I'm from Ukraine, I live in Kyiv.

I have loved to sew since childhood. I taught my favorite business at the Institute of Light Industry. After my retirement, I have been sewing textile handbags for 8 years, using mainly natural materials: cotton, linen, leather.

Before the war, I often participated in various hand-made fairs in Ukraine. During this time, I have created more than 850 different bags, many of which have gone all over the world.

I buy textiles for bags in small batches, so each model is produced in a limited edition or is unique.

I want to send part of the proceeds from the sale to help the Ukrainian army!
